Presentation

Creative Chemical Engineer – Ingeniero Químico Creativo.

“My goal is to use my technical and personal talent to get energy more cleanly and efficiently.”

Hello Dear! My name is Juan Antonio And I am a chemical engineer with an entrepreneurial spirit. My passion is energy efficiency and I am very interested in developing my profession in a creative and innovative environment. For this reason I present my candidacy for jobs where my profile fits. On my website you can view and download my resume.

My great interest in the sector of renewable energy and energy efficiency, coupled with the affinity of this sector with my skills and training, accredited me as a candidate for professional positions. Without further ado, I express my gratitude for the attention and interest placed in me and take the opportunity to greet you sincerely.

Personal Talent

My personal talent – Mi talento personal.

PERSONALITY - PERSONALIDAD

OPTIMISTIC - OPTIMISTA

CREATIVE - CREATIVO

FRIENDLY- AMIGABLE

SKILLS - HABILIDADES
